# FitBuddy – Customer Problem Statement

Create a problem statement to understand the needs and struggles of FitBuddy users. This template helps us focus on real fitness challenges faced by students, beginners, and working professionals who want personalized workout and nutrition guidance without hiring a personal trainer.

A well-defined customer problem statement allows the FitBuddy team to design an intelligent, affordable, and easy-to-use fitness platform. It helps us empathize with users, understand their frustrations, and build AI-driven solutions that adapt to their goals, progress, and lifestyle.
